

RARE – *Right Athlete Right Environment*

East Grinstead Hockey Club is committed to the principles of RARE.

Every young hockey player is unique, important and on some level of a development journey within our amazing sport. Our mission is to introduce, nurture & develop hockey potential for as many children as possible in our local area.

Young players potential will develop into all sort of forms of Talent, our goal is to provide the right environment for that potential to develop as high as possible, through our own offerings and through the wider hockey community.

As your child develops their potential, we will engage with you to discuss what we believe is the right environment for them and to help you, as a parent, understand what options are available.

We encourage all parents to familiarise themselves with England Hockey's information on the Talent System and pay particular attention to the RARE principles document. A great place to start is here: <https://www.englishockey.co.uk/play/talent-system/about-the-talent-system>

If at any stage you would like to understand more about the club's position on the development of your child, please start by speaking to your age group coach/manager. If you feel this is not an option to you for any reason, do not hesitate to contact the Junior Chairperson.
